FOUNDER — CREATIVE MUSIC TELEVISION

From a bedroom catalog to **millions of streams** — to building a music network of my own. Artist development, creative direction, and the pipeline that puts independent artists **on air**.

PREPARED FOR · **Music / A&R + Creative role**

— WHO'S ON AIR

THE ARTIST WHO BUILT THE NETWORK

I'm a recording artist, DJ and producer who grew an independent catalog to **millions of streams** and shared stages with acts like **Juice WRLD**. I learned the hard way that talent isn't the bottleneck — **distribution and platform are**. So I built one: **Creative Music Television**, an always-on music network, and **the Artist Hub** to put independent artists on screen.

"I BUILT 4 MILLION STREAMS. **VIRALITY WASN'T THE GOAL — THE NETWORK WAS.**"

ARTISTS IN NETWORK REACH

24/7ALWAYS-ON MULTI-PLATFORM
BROADCAST

- ◆ **Recording artist / DJ / producer** — grew a catalog to millions of streams with no major-label machine behind it.
- ◆ **Live & touring** — opened for **Juice WRLD** and other national artists.
- ◆ **Creator & educator** — built the "**If I Was Ur Music Manager**" franchise breaking down real artist development.

THE VISION

CREATIVE MUSIC TELEVISION

A new music network built for the streaming generation — always on, everywhere at once.

1

ALWAYS-ON BROADCAST

Programming publishes to Instagram Reels and YouTube Shorts around the clock — the channel never goes dark.

2

ORIGINAL PROGRAMMING

Signature franchises like "If I Was Ur Music Manager," DJ sets, and artist features — a real content slate.

3

BUILT TO SCALE

A repeatable engine that turns any artist's catalog into daily programming across channels.

● Running live now — automated hourly across platforms

— THE PRODUCT

THE ARTIST HUB

The front door into the network — where independent artists bring their catalog, get scheduled, and get broadcast across CMW's channels. (Confirm the one-line description you want here.)

UNDER THE HOOD — REAL, RUNNING INFRASTRUCTURE

A distribution pipeline (Python + GitHub Actions) that **schedules and auto-publishes clips hourly** to Instagram and YouTube, **dedupes** so nothing double-posts, and **fail-softs** so the network stays live even when a credential lapses. Not a mockup — production code.

ROSTER & REACH

I DON'T JUST BRING MYSELF. I BRING A PIPELINE AND A ROSTER.

2

LIVE CHANNELS — INSTAGRAM + YOUTUBE,
WITH ROOM TO ADD MORE

- ◆ **Access to hundreds of artists** at our disposal — a network, not a résumé of one.
- ◆ **A working distribution footprint** across Instagram Reels and YouTube Shorts, expandable to new channels and radio.
- ◆ **Relationships + infrastructure** — the two hardest things to fake in this industry, already in place.

— WHY ME

BUILT FOR A MUSIC / A&R + CREATIVE ROLE

- ◆ **A&R instinct, proven** — built a 4M+ stream catalog and can spot and develop talent that travels.
- ◆ **Creative direction** — a full network brand and content franchise, shipped and on air.
- ◆ **An operator who ships** — designed and runs real distribution infrastructure end-to-end.
- ◆ **Network & access** — hundreds of artists ready to activate on day one.
